

Specification

Pescara is a highly efficient floodlight for sports and large area lighting. Available with a wide range of lumen outputs from 45,000 – 179,000lm, multiple distribution types and accessories enable efficient and accurate designs achieving the highest levels of uniformity. Every aspect of this product is highly engineered and built to last in the harshest of environments.

**Main image shows 600w version with aluminium visor.*

Key Features

- Up to 160lm/w system efficacy
- Highly Efficient Optics
- Osram LED chips and Meanwell Driver package
- Separate driver box for heat dissipation
- Available in 4000, 5000 and 5700K CCT
- 300-1200w
- 45,000 – 179,000 lumen package
- 10kw surge protection
- 1-10V dimming available
- Available in single 240v and three phase 415V
- IP66 and IK08
- 5 yr Warranty
- Full range of accessories available inc. laser scope for aiming and anti-glare hood shield.
